800245	FLYING HAWK
801489	HEARTLAND

Note: Please be aware that, on a given day, the cumulative volume of all paths for a shipper receiving gas from a headstation pool and a receipt point(s) within that headstation pool are considered overlapping for purposes of segmentation and the calculation of overrun transportation charges. Consequently, any overlapping volumes in excess of a shipper's maximum delivery quantity will be subject to authorized overrun charges.

If you have any questions please contact your commercial representative.
