Dear Ms. Reese:

On March 20, 2025, the Federal Energy Regulatory Commission (“Commission”) issued an “Order Issuing Certificate and Approving Abandonment”¹ in the above-referenced docket approving the authorizations requested by Colorado Interstate Gas Company, L.L.C. (“CIG”) pursuant to sections 7(b) and 7(c) of the Natural Gas Act² and Part 157 of the Commission’s regulations.³ As relevant here, the Commission granted CIG a certificate of public convenience and necessity (“Certificate”) to: (1) increase the maximum withdrawal rate by approximately 50 million cubic feet per day; (2) install six new injection and withdrawal wells; (3) replace and install various sections of storage pipeline; (4) reclassify one existing injection/withdrawal well to an observation well; (5) install various appurtenant and auxiliary facilities; and (6) inject approximately one billion cubic feet of additional base gas into the Totem storage field, all part of the Totem Enhanced Deliverability Project. Therefore, in compliance with Section 157.20(a) of the Commission’s regulations, 18 C.F.R. § 157.20(a) (2024), CIG hereby accepts the Certificate.

This filing is being filed with the Commission's Secretary in accordance with the Commission's Order No. 703, *Filing Via the Internet*, guidelines issued on November 15, 2007 in Docket No. RM07-16-000.

Respectfully submitted,
