Re: Negotiated Rate Agreement Filing;
Cheyenne Plains Gas Pipeline Company, L.L.C.;
Docket No. RP26-

Commissioners:

Cheyenne Plains Gas Pipeline Company, L.L.C. ("CPG") hereby tenders for filing and acceptance by the Federal Energy Regulatory Commission ("Commission") the tariff records listed below for inclusion in Part II of its FERC Gas Tariff, First Revised Volume No. 1 ("Tariff"):

Section 2.0	Statement of Negotiated Rates	Version 3.0.0
Section 2.2	Koch Energy Services, LLC #221439-FTCPG	Version 3.0.0

Proposed with an effective date of September 1, 2026, these tariff records update CPG's Tariff to reflect a negotiated rate transportation service agreement ("TSA") executed with Koch Energy Services, LLC ("Koch").

Background

Currently, Agreement No. 221439-FTCPG between CPG and Koch is subject to a discounted tariff rate and reflects a term that expires on October 31, 2026. Agreement No. 221439-FTCPG provides capacity with a maximum delivery quantity ("MDQ") of 85,000 dekatherms ("Dth") per day. Recently, CPG and Koch entered into negotiations regarding the existing agreement and those negotiations resulted in the execution of an amended TSA ("Amendment"). The Amendment reflects an MDQ of 85,000 Dth per day and a term extension, beginning on September 1, 2026 and continuing through October 31, 2028.

Reason for Filing

Section 4.12 of the General Terms and Conditions ("GT&C") of the Tariff allows CPG and a shipper to agree to a service rate that varies as to the form of the rate and/or from the minimum-to-maximum range provided on the Statement of Rates. With the Amendment, the applicable rate changes from a discounted

rate to fixed negotiated rates. Specifically, a monthly negotiated reservation rate of \$5.1708 per Dth will apply for the period September 1, 2026 through October 31, 2026 and a monthly negotiated reservation rate of \$7.1479 per Dth will apply for the remainder of the term, November 1, 2026 through October 31, 2028. Additionally, the secondary receipt and delivery points specified in the Amendment are subject to the underlying negotiated reservation rate for the relevant time period.

When implementing a negotiated rate TSA, the Commission's policy requires pipelines to file either the TSA or a Statement of Rates tariff record identifying the transaction.¹ In accordance with this policy, CPG is submitting tariff records to reflect the negotiated rates and certain contractual terms.

Description of Filing

CPG is submitting the following tariff records pursuant to 18 C.F.R. § 154.112(b) (2025) and Subpart C of Part 154 of the Commission's regulations.²

The index page for Negotiated Rate Agreements found on Part II, Section 2.0 is updated to list the Amendment.

Part II, Section 2.2 reflects the fixed negotiated reservation rates and terms applicable to the Koch TSA. Specifically, the proposed tariff record includes the legal name of the shipper, the negotiated rates, the receipt and delivery points, the maximum delivery quantity, the applicable rate schedule for the service, and the contract term. Additionally, consistent with the Commission's policy, CPG has included a statement on the proposed tariff record to note that the underlying agreement conforms in all material respects with CPG's Rate Schedule FT form of service agreement.

Procedural Matters

In accordance with the applicable provisions of Part 154 of the Commission's regulations,³ CPG is submitting an eTariff XML filing package, which includes the following:

- a) a transmittal letter; and
- b) clean and marked versions of the tariff records in PDF format.

CPG respectfully requests the Commission accept the tendered tariff records for filing and permit them to become effective September 1, 2026, which

is not less than 30 days nor more than 60 days prior to the proposed effective date. With respect to any tariff record the Commission allows to go into effect without change, CPG hereby moves to place the tendered tariff record in to effect at the end of any minimal suspension period established by the Commission.
