CMQ Contract Amendment Request Form

A shipper requesting to amend its transportation service agreement ("TSA") to change a contract maximum delivery meter quantity ("CMQ") must submit this form to El Paso Natural Gas Company ("El Paso") by email at EPNGMarketing@elpaso.com or facsimile at (719) 520-4878. This form is only necessary for amendments to CMQs within individual multi-meter delivery codes ("D-Codes"). Should multiple requests be received by El Paso, the receipt date/time stamp of the email/fax communication will be used to determine a "first-in-time" request. Please see EBB Notice No. 7099.

A request to amend a transportation service agreement for a change to a CMQ level must meet the following requirements:

- ✓ The sum of the individual meters' CMQs will equal the D-Code MDQ.
- ✓ The sum of a meter's CMQs for all shippers will not be greater than the meter MDO set forth in the DP Operator's OPAS agreement. The sum of the hourly contract rights, as reflected in a meter's CMQs for all shippers, will not be greater than the meter MHO contained in the OPAS agreement.
- ✓ The proposed CMQ levels must be operationally feasible and must not negatively impact other firm shippers. Contract amendments that threaten system integrity or adversely affect other firm shippers will not be granted.

Please complete the following table, indicating the requested CMQ level.

<u>TSA No.</u>	<u>Delivery DRN</u>	<u>D-Code Name</u>	<u>MDO</u>	<u>Current</u>			<u>Requested</u>		
				<u>Meter</u>	<u>Meter Name</u>	<u>CMQ</u>	<u>Meter</u>	<u>Meter Name</u>	<u>CMQ</u>

* Revised CMQ levels will be reflected in an amended and restated TSA as soon as reasonably possible.
