Attention: Ms. Debbie-Anne A. Reese, Secretary

Re: El Paso Natural Gas Company, L.L.C.;
Docket No. CP26-156-000
Supplement to Request for Alternative Measures

Dear Ms. Reese:

On October 8, 2026, El Paso Natural Gas Company, L.L.C. (“EPNG”) filed with the Federal Energy Regulatory Commission (“Commission”), in Docket No. CP26-156-000, an alternative measures request (“Request”) under Section IV.A.1 of the Commission’s Upland Erosion Control, Revegetation, and Mitigation Plan related to its Permian West Expansion Project (“Project”) Prior Notice Application (“Application”). In support of its Request, EPNG is providing the supplemental information described below.

Description of Proceeding

On March 27, 2026, EPNG submitted a Request for Prior Notice Authorization Pursuant to Blanket Certificate in the above-referenced docket seeking authorization to construct, install, operate and maintain an approximately nine-mile, 30-inch outside diameter pipeline loop extension and related appurtenances, located in Hudspeth County, Texas as part of its Project.¹ The Project is designed to provide additional firm transportation capacity on EPNG’s Line No. 1100 system.

Supplemental Information Related to Alternative Measures Request

As described in its Request, in order to restore full access via Permanent Access Road No. 2 (“PAR-2”), road repairs will require construction contractors to work outside of the existing access road limits by approximately 5-feet on each side along an approximate 5.3-mile segment of the access road. Portions of the additional workspace have patches of shrub-scrub. EPNG anticipates that use of the additional workspaces may require clearing patches of shrub-scrub along PAR-2. As noted in its Request,

¹ On April 6, 2026, the Commission issued a Notice of Request Under Blanket Authorization initiating the 60-day comment period that concluded on June 5, 2026. Construction activities related to the Project commenced on July 23, 2026.

these areas were previously surveyed and included in reviews and consultations with the United States Fish and Wildlife Service for the Project. Upon Project completion, the affected areas will be re-seeded with the goal of restoring these areas to pre-construction conditions.

Filing Information

EPNG is e-Filing this letter with the Commission's Secretary in accordance with the Commission's Order No. 703, *Filing Via the Internet*, guidelines issued on November 15, 2007 in Docket No. RM07-16-000.

Respectfully submitted,

EL PASO NATURAL GAS COMPANY, L.L.C.
