Re: Midcontinent Express Pipeline LLC
Negotiated Rate Agreement Filing
Docket No. RP26-

Dear Ms. Reese:

Pursuant to Section 4 of the Natural Gas Act (“NGA”) and Section 154 of the regulations of the Federal Energy Regulatory Commission (“Commission” or “FERC”), Midcontinent Express Pipeline LLC (“MEP”) hereby submits for filing and acceptance two (2) negotiated rate agreements under Rate Schedule FTS between MEP and TC Energy Marketing Inc. (“TC Energy”) and between MEP and ARM Energy Management LLC (“ARM Energy”) (the “New Agreements”). Furthermore, MEP hereby submits the tariff records listed in Appendix A to reflect the inclusion of the New Agreements in its FERC Gas Tariffs, First Revised Volume No. 1 and Original Volume No. 2 (“Tariff”) with a proposed effective date of April 1, 2026. MEP also submits the removal of two expired negotiated rate agreements. MEP respectfully requests a waiver of the 30-day notice requirement to effectuate the April 1, 2026 effective date, as discussed below.

Statement of Nature, Reasons, and Basis

This filing is submitted pursuant to the Commission’s Negotiated Rate Policy Statement issued January 31, 1996 in Docket No. RM95-6-000 (“Policy Statement”).¹ In the Policy Statement, the Commission announced that it would allow companies to implement negotiated rate programs. Section 30 of the General Terms and Conditions of MEP’s Tariff allows MEP to implement negotiated rates and provides that MEP will file with the Commission a tariff record advising the Commission of the specifics of the negotiated rate or, alternatively, MEP may file the contract setting out the negotiated rate.

As a part of this filing, MEP is submitting tariff records containing the new negotiated rate exhibits, which detail the specifics of the agreements. The negotiated rate agreements with TC

¹ The Commission’s current policies were originally established in, *Alternatives to Traditional Cost-of-Service Ratemaking for Natural Gas Pipelines, Regulation of Negotiated Transportation Services, Statements of Policy and Comments*, 74 FERC ¶ 61,076 (1996), *order on clarification*, 74 FERC ¶ 61,194 (1996), *order on reh’g*, 75 FERC ¶ 61,024 (1996). See, also, *Natural Gas Pipeline Negotiated Rate Policies and Practices, Modification of Negotiated Rate Policy*, 104 FERC ¶ 61,134 (2003).

Energy and ARM Energy do not deviate in any material respect from the form of service agreement in MEP's Tariff.

Procedural Matters

In accordance with the applicable provisions of Part 154 of the Commission's regulations,² MEP is submitting an eTariff XML filing package, which includes the following:

1. This transmittal letter;
2. A list of proposed tariff records and clean and marked versions of each tariff record in PDF format in Appendix A.

MEP respectfully requests the Commission accept the tendered tariff records for filing and permit them to become effective on April 1, 2026. As such, MEP requests the Commission grant a waiver of the notice requirements found in 18 C.F.R. § 154.207 of the Commission's regulations. With respect to any tariff record the Commission allows to go into effect without change, MEP hereby moves to place the tendered tariff record into effect at the end any minimal suspension period specified by the Commission.

1.1 — Negotiated Rate Term: From January 24, 2026 through March 31, 2026

1.2 — Negotiated Rates:

(a) Negotiated Reservation Rate:

Shipper shall pay a daily negotiated reservation rate equal to the greater of:

~~\$0.075 per Dth per day; and~~

~~\$0.075 per Dth per day plus an amount equal to seventy percent (70%) of any positive spread in excess of \$0.075, where such spread is calculated as:~~

~~The Daily Delivery Index Price minus ([Daily Receipt Index Price plus a mutually agreeable daily adder] multiplied by (1 + MEP's F&LR for the applicable Zone 1-1 transportation path)), minus MEP's Base Commodity Rate for the applicable Zone 1-1 transportation path.~~

~~The Daily Delivery Index Price for each applicable day shall be equal to the daily index price as published by Platts Gas Daily for TGT (Zone 1) Gas Daily Midpoint.~~

~~The Daily Receipt Index Price for each applicable day shall be equal to the daily index price as published by Platts Gas Daily for NGPL-TxOk Gas Daily Midpoint.~~

~~The Mutually Agreeable Daily Adder for each applicable day shall be based on the daily Bennington traded midpoint.~~

~~In the event that the Daily Delivery Index Price and/or the Daily Receipt Index Price are no longer published, the parties will use commercially reasonable efforts to mutually agree on a replacement index price(s) that preserves the original intent of the parties.~~

(b) Commodity Rate:

~~Shipper shall pay the applicable maximum commodity rate set forth in MEP's Tariff for service under the Transportation Agreement.~~

~~1.3 — Eligible Firm Transportation Quantity~~

~~40,000 Dth per day in Zone 1~~

~~1.4 — Eligible Primary Receipt Points:~~

NAME	PIN	Eligible Point (MDQ)
HPL/MEP LAMAR	44440	30,000
MIDSHIP/MEP BENNINGTON BRYAN	50502	10,000

~~1.5 — Eligible Secondary Receipt Points~~

~~Eligible Secondary Receipt Points. The Negotiated Rates for capacity shall apply to service provided on a firm basis from all secondary receipt points within the primary path utilized for service under the Transportation Agreement, including pooling points.~~

~~1.6 — Eligible Primary Delivery Points:~~

~~1.7 — Eligible Secondary Delivery Points. The Negotiated Rates for capacity in Zone 1 shall apply to service provided on a firm basis to all secondary delivery points within the primary path utilized for service under the Transportation Agreement, including pooling points.~~

~~ARTICLE 2~~

~~NEGOTIATED RATE TERMS AND CONDITIONS; ADDITIONAL CHARGES~~

~~2.1 — General Negotiated Rate Limitations. The Negotiated Rates shall apply to: (i) service provided to Shipper by MEP from the Eligible Receipt Points to the Eligible Delivery Points during the Negotiated Rate Term; and (ii) an aggregate maximum daily firm transportation quantity equal to the Eligible Firm Transportation Quantity set forth in~~

~~Article 1.3 above, for all quantities transported on a firm basis under the Transportation Agreement. For any aggregate quantities transported on a firm basis on any day for Shipper which: (i) are in excess of the applicable Eligible Firm Transportation Quantity; or (ii) involve any receipt or delivery points which are not Eligible Receipt or Delivery Points, Shipper shall be charged the greater of: (a) the 100% load factor daily rate equivalent of the Shipper's applicable Negotiated Rates for Zone 1, Zone 2; and (b) the 100% load factor daily rate equivalent of the applicable maximum base reservation and base commodity rates set forth in MEP's Tariff, as well as all applicable additional rates, charges and surcharges described in Article 2.2 below.~~

~~2.2 — Discountable Third Party Surcharges. From time to time, certain reservation and/or commodity surcharges may be approved by the FERC for inclusion in MEP's FERC Gas Tariff which MEP is: (i) required to collect from Shipper and remit to the FERC or to another third party; and (ii) permitted to discount the amount of such surcharge from the applicable maximum rate set forth in MEP's FERC Gas Tariff ("Discountable Third Party Surcharges"). MEP shall discount any particular Discountable Third Party Surcharge to the maximum extent permitted under the provisions of MEP's FERC Gas Tariff. Shipper shall only be responsible for payment to MEP of any portion of such Discountable Third Party Surcharge which MEP is not permitted to discount and for which MEP bills Shipper. There are no applicable Discountable Third Party Surcharges; provided, however, to the extent any Discountable Third Party Surcharge is approved by the FERC for inclusion in MEP Tariff during the term hereof, MEP shall discount such Discountable Third Party Surcharge(s) to the maximum extent permitted under the provisions of its FERC Gas Tariff but not below the amount of such Discountable Third Party Surcharge(s) that MEP is required to remit. Accordingly, Shipper shall be responsible for and pay to MEP the amount attributable to such Discountable Third Party Surcharge(s) which MEP is responsible for paying and remitting to the FERC and/or third party.~~

~~2.3 — Additional Rates, Charges, and Surcharges. In addition to the Negotiated Rates, and unless otherwise expressly provided herein, Shipper shall also pay MEP all other applicable maximum rates, charges, surcharges, and penalties of any nature set forth in MEP's Tariff, including without limitation all applicable (i) Fuel, booster fuel, and Gas Lost and Unaccounted For charges; (ii) authorized and unauthorized overrun charges; (iii) reservation surcharges; (iv) commodity charges and surcharges; and (v) ACA surcharges.~~
