Re: Mojave Pipeline Company, L.L.C. and  
Kern River Gas Transmission Company  
Docket No. CP14-129-000  
Quarterly Post-Construction Status Report

Dear Secretary Bose:

Mojave Pipeline Company, L.L.C. is hereby filing with the Federal Energy Regulatory Commission ("Commission") in Docket No. CP14-129-000 its Quarterly Post-Construction Status Report related to the Mojave Line No. 1901 Replacement Project ("Project").

### **Description of Proceeding**

On March 31, 2014, Mojave filed an application, pursuant to Section 7(c) of the Natural Gas Act, requesting a certificate of public convenience and necessity to replace certain pipeline facilities in Kern County, California.<sup>1</sup> The Commission approved the Application on July 17, 2014. Mojave commenced service on the Line No. 1901 Replacement Project facilities on January 26, 2015.

### **Submittal of Status Report**

Mojave is herein providing a quarterly post-construction status report for the period of July 1, 2018 through September 30, 2018.

---

<sup>1</sup> In light of the fact that the Project involved replacement of jointly-owned common pipeline facilities, Mojave Pipeline Company, L.L.C. and Kern River Gas Transmission Company filed a joint certificate application to secure the necessary authorizations.

**Filing Information**

Mojave is efilng this letter with the Commission's Secretary in accordance with the Commission's Order No. 703, *Filing Via the Internet*, guidelines issued on November 15, 2007 in Docket No. RM07-16-000. Applicants are also providing a copy of this filing to the Commission's Office of Energy Projects.

Respectfully submitted on behalf of Mojave  
Pipeline Company, L.L.C. and Kern River  
Gas Transmission Company

MOJAVE PIPELINE COMPANY, L.L.C.

**Mojave Pipeline Company, L.L.C.**  
**Mojave Line No. 1901 Replacement Project**  
**Reporting Period: July 1, 2018 to September 30, 2018**

**Environmental Inspector:** Not Applicable

**Quarterly Report Milestones:**

During this reporting period, Mojave received a letter dated 26 September 2018 from Bakersfield Field Office for Bureau of Land Management (“BLM”) regarding revegetation success along the ROW of Mojave’s Line No. 1901 Replacement Project. BLM visually inspected the project area on August 8<sup>th</sup> and 13<sup>th</sup> of 2018 and determined that the eastern portion of Segment 1 (east of State Highway 119) meets BLM’s criteria for revegetation success and no further work or inspection is required. However, BLM determined that the western portion of Segment 1 (between State Highway 119 and Harrison Street) does not meet the post-construction success criteria and BLM has requested that Mojave reseed this area. Mojave anticipates reseeding the western portion of Segment 1 sometime during the fourth quarter of 2018.

As referenced in previous reports, Segment 2 has not been reseeded in accordance with the private landowner’s request.

Kinder Morgan and Kern River Gas continue to move forward with having the Center for Natural Lands Management (“CNLM”) take fee title and management of the Petit Property while the California Department of Fish and Wildlife (“CDFW”) will hold the Conservation Easement. Mojave reports that this process is in the final stages of completing the Agreement for Ownership, Stewardship, and Endowment Management with CNLM. The Companies are still awaiting all final comments from CDFW in order to finalize the Conservation Easement.

**Landowner Complaints:**

There was no landowner/resident complaints received during this reporting period.
