Re: Annual FL&U Filing and

Annual Operational Purchase and Sales Report;

Mojave Pipeline Company, L.L.C.; Docket No. RP21-

#### Commissioners:

Mojave Pipeline Company, L.L.C. ("Mojave") tenders for filing and acceptance by the Federal Energy Regulatory Commission ("Commission"), Version 19.0.0 of Part II: Statement of Rates of Third Revised Volume No. 1 of its FERC Gas Tariff ("Tariff").

Pursuant to the procedures set forth in Section 13 of the General Terms and Conditions ("GT&C") of Mojave's Tariff, the tariff record is submitted to reflect adjusted fuel and lost and unaccounted-for gas ("FL&U") reimbursement percentages to become effective January 1, 2021. In addition to this proposed tariff record, Mojave is submitting its Annual Operational Purchase and Sales Report that provides information related to incidental purchases and sales of gas for operational reasons.

#### Reason for Filing

Section 13 of the GT&C of Mojave's Tariff states that the FL&U Reimbursement Percentages shall be computed annually using the procedures described in that section. As such, Mojave files with the Commission no later than November 30 of each year for recomputed percentages to become effective January 1 of each calendar year. The FL&U reimbursement percentages reflect any volumetric over/under–recovery from the previous period.

In addition, Section 13.3(c) of the GT&C of Mojave's Tariff requires in its annual FL&U filing the inclusion of information related to the source (e.g., purchase) and disposition (e.g., sales) of operational gas for fuel and L&U, including gas required for gas balancing. This information is attached as Appendix D.

#### **Description of Filing**

This filing is submitted, pursuant to Subpart C of Part 154 of the Commission's regulations<sup>1</sup> and Mojave's Tariff to revise its FL&U percentages described below.

#### **FL&U Percentage Update**

#### <u>Fuel</u>

The Fuel Reimbursement Percentage comprises the Current Fuel Reimbursement Period Percentage and the Fuel Volumetric True-Up Reimbursement Percentage. As required by Section 13.3(a)(i) of the GT&C of Mojave's Tariff, Mojave uses the 12-month data collection period ending the previous September 30. Therefore, the instant filing reflects information from October 1, 2019 through September 30, 2020 to establish the Current Fuel Reimbursement Period Percentage utilizing actual fuel use and actual throughput during the period. Based on this data, the proposed Current Fuel Reimbursement Period Percentage will decrease slightly from 0.47% to 0.46%.

Mojave uses the same data collection period utilized for the calculation of the Current Fuel Reimbursement Period Percentage to compare actual fuel used to fuel reimbursed to determine the Fuel Volumetric True-up Reimbursement Percentage. Based on this comparison, any under or over-collection is intended to be reimbursed to Mojave or returned to Mojave's customers through this mechanism. For the period of October 1, 2019 through September 30, 2020, Mojave over-collected 9,590 Dth. Additionally, Mojave under-collected 5,446 Dth related to prior period volumetric true-up quantities. In total, Mojave over-collected 4,144 Dth during the data collection period to be returned to its customers. Because the net over-collection is so small relative to the throughput, the resulting quotient to determine the proposed Fuel Volumetric True-up Reimbursement Percentage is 0.00%.<sup>2</sup> This is the same percentage as the currently approved Fuel Volumetric True-up Reimbursement percentage. Accordingly, the Fuel Reimbursement Percentage is proposed to decrease from 0.47% to 0.46%.

#### L&U

The L&U Reimbursement Percentage comprises the Current L&U Reimbursement Period Percentage and the L&U Volumetric True-Up Reimbursement Percentage. Similar to the calculation for the Fuel Reimbursement Percentage, Mojave has predominantly used the L&U experienced during the 12-month data collection period of October 1 through September 30. In Docket No. RP20-283-000, however, Mojave utilized a two-year average of the data collection periods from its previous two filings to project a more reasonable L&U for that filing because the L&U experienced during the typical data

See 18 C.F.R. §§ 154.201 - 154.210 (2020).

Although the mathematical computation rounds to 0.00%, Mojave will include the 4,144 Dth of over-collected gas in its next annual filing.

collection period was anomalously low including several months of gains.<sup>3</sup> During the twelve-month data collection period in this filing, Mojave also experienced a significantly lower amount of L&U than it has experienced in a typical 12-month period, including some months with gains between November 2019 and April 2020.<sup>4</sup> As a result of this anomaly, the annual total during the data collection period is not representative of the L&U experienced in a typical data collection period.<sup>5</sup> The last 4 months of the current data collection period did show a return to levels more in line with historical amounts with the last 4 months averaging 224,919 Dths on an annual basis. Therefore, Mojave is proposing<sup>6</sup> to utilize the average of the L&U experienced for the previous two data collections periods and the current data collection period of 349,086 Dth,<sup>7</sup> 79,935 Dth,<sup>8</sup> and 150,550 Dth.<sup>9</sup> This results in an L&U Current Period Projection of 193,190 Dth for the period these retention percentages will be in effect. The resulting Current L&U Reimbursement Period Percentage of 0.20%.

During the data collection period, Mojave over-collected L&U quantities of 174,043 Dth. Mojave also had a remaining over-collection from prior filings of 4,602 Dth. The sum of the two results in a net over-collection of L&U of 178,645 Dth. The resulting L&U Volumetric True-up Reimbursement Percentage is negative 0.12%, which is an increase of 0.05% from the existing percentage of negative 0.17%. Accordingly, the L&U Reimbursement Percentage (including Current L&U Reimbursement Period and L&U Volumetric True-up Percentages) is proposed to decrease from 0.03% to 0.00%.

<u>Part II "Statement of Rates"</u> is submitted to revise the reimbursement percentages for fuel and L&U calculated pursuant to Section 13 of the GT&C of Mojave's Tariff. As described above, the revised fuel and L&U percentages reflect a decrease in the total retention percentage applicable to fuel from 0.47% to 0.46%, and a decrease in the total L&U retention percentage from 0.03% to 0.00%.

<sup>&</sup>lt;sup>3</sup> See Docket No. RP20-883-000 Appendix B, Schedule 1.

<sup>&</sup>lt;sup>4</sup> See Appendix B, Schedule 1, line 26.

For example, the L&U from the current data collection period was 150,550 Dth (See Appendix B, Schedule 1, line 26, column (b)) while the L&U experienced from October 2017 through September 2018 and from October 2016 through September 2017 was 349,086 Dth (See Docket No. RP19-334-000, Appendix B, Schedule 1, Line 26, column (b)) and 244,905 Dth (See Docket No. RP18-214-000, Appendix B, Schedule 1, Line 26, column (b)), respectively.

<sup>&</sup>lt;sup>6</sup> Section 13.5 of the GT&C allows for the adjustment of historical L&U data used to project activity expected to occur on Mojave's system.

<sup>&</sup>lt;sup>7</sup> See Docket No. RP19-334-000 Appendix B, Schedule 1, Line 26, column (b).

<sup>&</sup>lt;sup>8</sup> See Docket No. RP20-883-000 Appendix B, Schedule 1, Line 26, column (b).

<sup>&</sup>lt;sup>9</sup> See Appendix B, Schedule 1, line 26, column (b).

#### **Operational Purchases and Sales Report**

Mojave is including in this filing its Operational Purchase and Sales report for the 12-month period of October 2019 through September 2020. The time period covered by this Operational Purchase and Sales Report corresponds to the data collection period utilized for the Fuel and L&U Reimbursement Percentage calculations. Accordingly, Appendix D, Schedules 1 through 7, is attached.

#### Section 154.204 Discussion

Pursuant to 18 C.F.R. § 154.204 (2020), Mojave states the following:

- (a) Mojave does not anticipate a significant increase in revenues or costs as a result of the proposed tariff changes; and
- (b) Mojave is not aware of any other filings pending before the Commission that may significantly affect this filing.

#### **Procedural Matters**

In accordance with the applicable provisions of Part 154 of the Commission's regulations,<sup>10</sup> Mojave is submitting an eTariff Filing XML package, which includes the following:

- a) a transmittal letter;
- b) workpapers under Appendices A-C in PDF format;
- c) Appendix D, Schedules 1-7, detailing the Operational Purchase and Sales activity in PDF format and:
- d) clean and marked versions of the tariff records in PDF format.

Mojave respectfully requests the Commission accept the tendered tariff record for filing and permit it to become effective January 1, 2021, which is not less than 30 days from the date of this filing. With respect to any tariff provisions the Commission allows to go into effect without change, Mojave hereby moves to place the tendered tariff provisions into effect at the end of any minimal suspension period.

Additionally, pursuant to 18 C.F.R. § 154.7(a)(7) (2020) of the Commission's regulations, Mojave respectfully requests that the Commission grant all necessary waivers to effectuate this filing.

<sup>&</sup>lt;sup>10</sup> See 18 C.F.R. §§ 154.101 – 154.603 (2020).
