

HubAmerica is a program developed by Natural that provides customers a convenient way to obtain pricing for discounted Interruptible Transportation Service (ITS) as well as other discounted services. It is designed to provide customers diverse and economic access to premium markets. HubAmerica offers customers increased flexibility and optionality with minimal administrative burden and optimal market sensitivity.

Natural's pipeline assets provide access to the majority of interstate and intrastate pipeline systems which serve the northeast, southeast and western regions of the United States. By utilizing the flexibility of Natural's pipeline system, HubAmerica offers a wide variety of discounted transportation rates to premium markets, including "Path Specials" which are daily transportation rates offered between specific receipt and delivery points. The HubAmerica rate in effect for the gas day at the time a Shipper submits their ITS nomination will automatically be granted to that Shipper.

To obtain currently effective daily HubAmerica ITS rates, Path Specials, and other current discounted services and applicable Fuel Retention Factors, please click on the appropriate link(s) in the menu on the left hand side of this page. If you have questions regarding the Hub America Program, please contact your Account Director.
