

LOCATION(S) HELD TO ELAPSED-PRORATED-SCHEDULED QUANTITY (EPSQ) – SOUTH TEXAS ZONE

Effective on April 17, 2024, Natural would like to inform its Shippers and Operators that the following location(s) are being held to Elapsed-Prorated-Scheduled Quantity (EPSQ) by Natural in its South Texas Zone due to operational conditions. Shippers should carefully monitor any nomination error messages when submitting nominations below EPSQ and ensure those quantities have been properly submitted to Natural and are not being held up in a supervisor approval status for review. Additionally, please be aware that when nominating quantities previously confirmed, third-party Operators, other than Natural, may also hold locations to EPSQ.

LOCATION(S) HELD TO EPSQ – SOUTH TEXAS ZONE:

LOC 47226 NET MEXICO NUECES

Please contact your Scheduling Representative for any questions.
