Attention: Ms. Debbie-Anne A. Reese, Acting Secretary

Re: Colorado Interstate Gas Company, L.L.C.;  
Docket No. CP24-124-000  
Response to Environmental Data Request – OEP/DG2E/Gas Branch 2

Dear Ms. Reese:

On August 13, 2024, Colorado Interstate Gas Company, L.L.C. (“CIG”), received an environmental data request (“Data Request”) in Docket No. CP24-124-000 from the Office of Energy Projects (“OEP”) seeking information related to CIG’s Totem Enhanced Deliverability Project. CIG is herein filing with the Federal Energy Regulatory Commission (“Commission”) its responses to the Data Request.

### **Description of Proceeding**

On April 8, 2024, CIG filed an application, pursuant to Section 7(c) and (b) of the Natural Gas Act, and Part 157.5, et seq., of the Commission’s Regulations for a certificate of public convenience and necessity and abandonment authorization to modify and enhance its existing Totem storage field located in Adams County, Colorado in order to increase the maximum withdrawal rate by approximately 50 million cubic feet per day. Specifically, CIG proposes to: (1) install six new injection and withdrawal wells; (2) replace and install various sections of storage pipeline; (3) reclassify one existing injection/withdrawal well to an observation well; (4) install various appurtenant and auxiliary facilities; and (5) inject approximately one billion cubic feet of additional base gas into the Totem storage field. The proposed project, is referred to as the “Totem Enhanced Deliverability Project”.

### **Description of Information Being Filed**

CIG is herein submitting its response to the August 13, 2024 OEP Data Request.

### **Filing Information**

CIG is e-Filing this letter and response with the Commission's Secretary in accordance with the Commission's Order No. 703, *Filing Via the Internet*, guidelines issued on November 15, 2007 in Docket No. RM07-16-000.

COLORADO INTERSTATE GAS COMPANY, L.L.C.  
Response to Data Request – OEP/DG2E/Gas Branch 2  
Dated August 13, 2024 in Docket No. CP24-124-000  
Totem Enhanced Deliverability Project

**ENVIRONMENTAL INFORMATION REQUEST**

**Resource Report 5: Socioeconomics**

1. Provide a map depicting the project facilities in relation to all block groups within 5 kilometers of the Project area(s), and/or any block groups crossed by the pipeline right-of-way, including minority and low-income populations (using block group data). Denote on the map if a block group is identified as an environmental justice community based on the minority threshold, low-income threshold, or both.

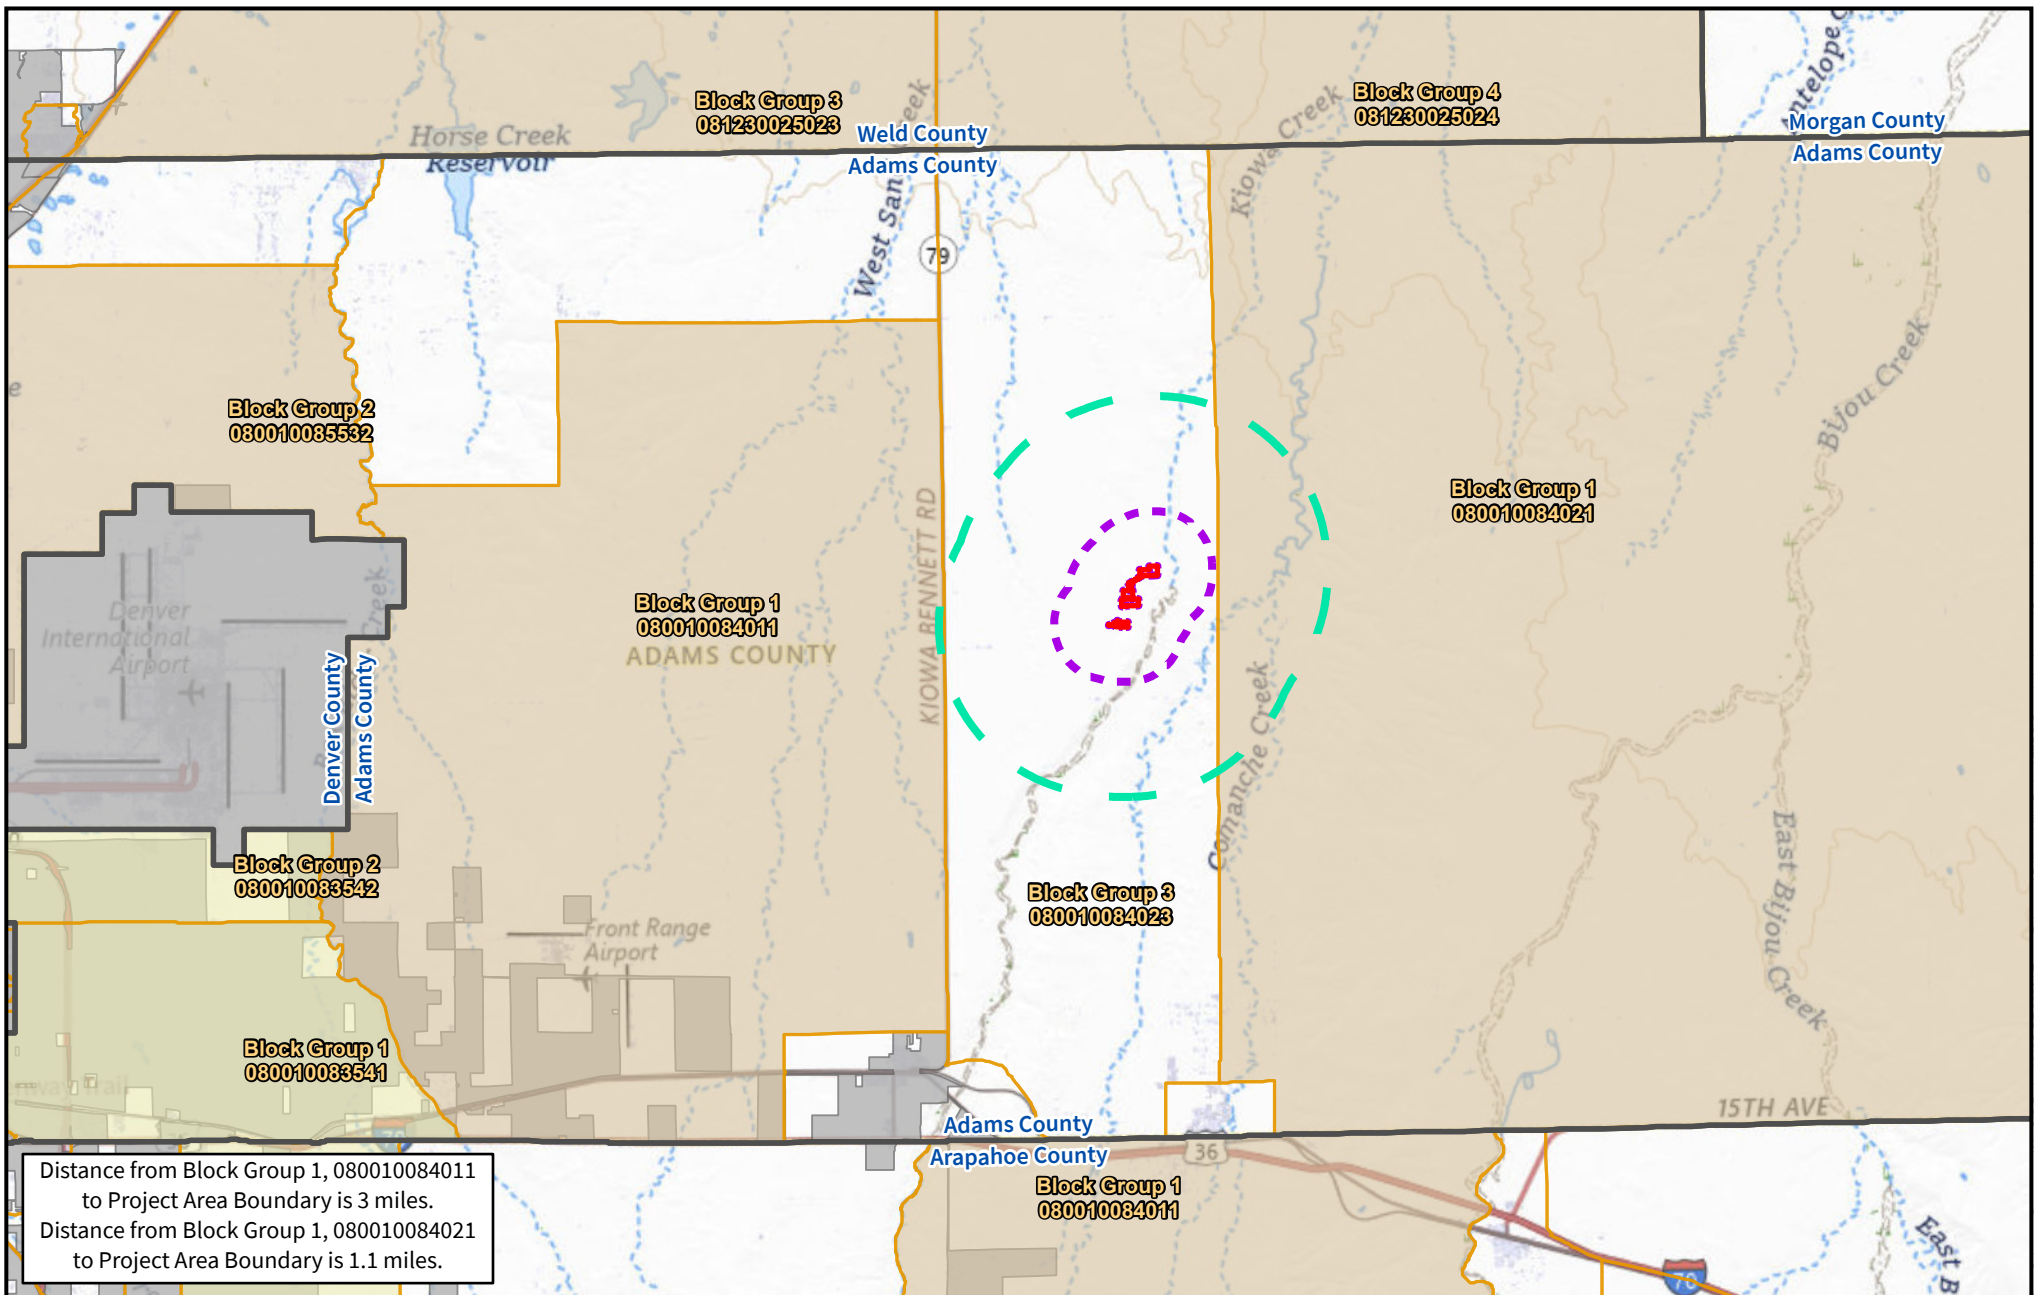

**Response:**

CIG is providing behind this response, Figure 1-1 which is a map depicting the project facilities in relation to block groups in Adams County, Colorado, particularly those block groups located within 5 kilometers of CIG's Totem Enhanced Reliability Project. As depicted in Figure 1-1, the Totem Storage project facilities and the corresponding one-mile project buffer originally evaluated are entirely located in Block Group 08001008423, which does not meet the criteria as having either a minority or low-income environmental justice community.

When evaluating a 5-kilometer buffer, the census block to the east (Block Group 080010084021) is within this range. Based on census data, Block Group 080010084021 does meet the criteria for low-income environmental justice communities. On the western side, the 5-kilometer buffer extends to the western demarcation of the original Block Group 08001008423 and the eastern demarcation of Block Group 080010084011. Note that Block Group 080010084011 does meet the criteria for low-income environmental justice communities. Additionally, neither Block Group 080010084021 nor Block Group 080010084011 meets the threshold for minority environmental justice communities.

Response prepared by or under the supervision of:

Mike Bonar  
Environmental Permitting Project Manager  
Kinder Morgan EHS Project Permitting  
719-520-4817

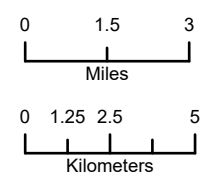

Distance from Block Group 1, 080010084011 to Project Area Boundary is 3 miles.  
 Distance from Block Group 1, 080010084021 to Project Area Boundary is 1.1 miles.
