

Southern Natural Gas:

Southern Natural Gas (SNG) is a 7,600 mile SNG system is made up of pipelines extending from natural gas supply basins in Texas, Louisiana, Mississippi, Alabama and the Gulf of Mexico to market areas in Louisiana, Mississippi, Alabama, Florida, Georgia, South Carolina and Tennessee, including the metropolitan areas of Atlanta and Birmingham.

SNG is the principal natural gas transporter to southeastern markets in Alabama, Georgia and South Carolina, which are part of one of the fastest growing natural gas demand regions in the United States. The SNG system is also connected to Southern LNG's Elba Island LNG terminal near Savannah, Georgia.
