Re: Wyoming Interstate Company, L.L.C.
Fort Union Gas Gathering, L.L.C.
Request for Order Approving Application
Docket No. CP26-546-000

Dear Secretary Reese:

Wyoming Interstate Company, L.L.C. ("WIC") and Fort Union Gas Gathering, L.L.C. ("FUGG") jointly submit this letter to respectfully request that FERC accept the Application filed in this matter and expeditiously issue an order to allow for the transportation of interstate natural gas utilizing the leased capacity requested in the Application.

On June 23, 2026, WIC and FUGG jointly filed an abbreviated application (the "Application"), pursuant to Section 7 of the Natural Gas Act ("NGA"), requesting a certificate of public convenience and necessity authorizing WIC to lease capacity from FUGG's pipeline system that will be used to provide interstate natural gas transportation capacity to WIC's shippers. Concurrently, FUGG sought a limited jurisdiction certificate to allow for the transportation of interstate natural gas through its respective system, while leaving FUGG's natural gas gathering operations exempt from FERC's NGA jurisdiction. The Application sought an order no later than October 1, 2026. Public comments, protests, and interventions were due July 22, 2026, and none were received. WIC and FUGG have been responsive to FERC's data requests, and none remain outstanding.

FUGG has constructed its facilities necessary for this project. WIC's shipper on this project, OneOK Rockies Midstream, L.L.C. ("OneOk") also expects the in-service date of its facilities to be early November 2026. To date, FERC has not issued authorization for the Application, nor are there outstanding data requests. However, given that FUGG and OneOk are both nearing an in-service date, WIC and FUGG respectfully request that FERC issue an order accepting the Application and issue a certificate order allowing for the transportation of interstate natural gas.

Respectfully submitted,

WYOMING INTERSTATE COMPANY, L.L.C.
