Re: Order No. 587- AB Compliance Filing;
Young Gas Storage Company, Ltd.;
Docket No. RP26-

Commissioners:

In compliance with the Federal Energy Regulatory Commission's ("Commission") Final Rule in Docket No. RM96-1-044, ("Order No. 587-AB" or "Final Rule"),¹ Young Gas Storage Company, Ltd. ("YGS") submits for filing the following tariff record for inclusion in Part IV of its FERC Gas Tariff, First Revised Volume No. 1 ("Tariff"):

Section 22 Compliance with 18 CFR, Section 284.12 Version 10.0.0

Proposed to become effective January 1, 2027, to comply with Order No. 587-AB, this tariff record reflects the latest revisions to certain Version 4.0 business practice standards adopted by the Wholesale Gas Quadrant ("WGQ") of the North American Energy Standards Board ("NAESB") as adopted by the Commission in Order No. 587-AB.

Reason for Filing

On May 22, 2026, the Commission issued Order No. 587-AB amending its regulations to incorporate by reference, with certain exceptions, Version 4.0.² As described in the Final Rule,³ the Version 4.0 standards include: 1) a new standard addressing the posting of scheduled quantity information for power plants directly connected to a pipeline, 2) an update to an existing electronic delivery mechanism standard to establish a new information posting category on a pipeline's

informational postings web site, and 3) a new standard that addresses the inclusion of geographical information in critical notices.

In Order No. 587-AB, the Commission noted that it would continue the compliance filing requirements first established in Order No. 587-V.⁴ Accordingly, for each standard, Order No. 587-AB requires the pipeline to specify in the tariff section listing all the NAESB standards: a) whether the standard is incorporated by reference; b) for those standards not incorporated by reference, the tariff provision that complies with the standard; or c) for those standards with which the pipeline does not comply, an explanatory statement, including an indication of whether the pipeline has been granted a waiver, extension of time, or other variance with respect to compliance with the standard.⁵ With the Final Rule and consistent with Order No. 587-V, the Commission also mandated that pipelines request to continue any existing waivers or extensions, as necessary.⁶ The Final Rule requires each interstate natural gas pipeline to submit a compliance filing reflecting the changed standards by September 1, 2026, to take effect on January 1, 2027.⁷

Description of Filing

YGS is hereby filing an updated tariff record in compliance with the Commission's Order No. 587-AB. Specifically, YGS is revising Section 22 of its General Terms and Conditions to incorporate the NAESB WGQ standards adopted by reference in the Final Rule and to reflect the extensions of time and variances requested below.

Incorporation of NAESB Version 4.0

Part IV, Section 22 is updated to reflect the addition of and modification to three NAESB WGQ standards in the Version 4.0 revision, the applicable copyright years, and the inclusion of a citation to the relevant Commission order(s) on previously accepted variances, waivers, and extensions. Additionally, this tariff record reflects a housekeeping update to remove a certain standard (i.e., 12.2.20), given that such standard is no longer included in the Cybersecurity Related Standards definitions.

Continuance of Variance and Extensions of Time

In Part IV, Section 6.1, YGS's Tariff includes a variance to NAESB WGQ Standard 1.3.2, which extends the nomination periods for an additional fifteen minutes. The additional fifteen minutes conforms to Commission policy that

pipelines may modify NAESB standards to provide better service to its customers.⁸ This variance was accepted by the Commission in previous orders.⁹

Additionally, Part IV, Section 22 provides for extensions of time for NAESB Standards 1.3.17, 1.3.18, and 3.3.6. YGS requests continued extension of the time to comply with these NAESB standards relating to pooling. The Commission has recognized that these NAESB standards apply only if pooling is feasible on YGS's system.¹⁰ YGS's facilities still consist of a single storage field interconnecting it to only one other pipeline system; therefore, pooling remains infeasible. As such, good cause continues to exist to grant YGS an extension of time to implement NAESB WGQ Standards 1.3.17, 1.3.18 and 3.3.6 until 180 days following its receipt of a request from a Part 284 customer after pooling becomes feasible on YGS's system, as previously granted by the Commission.¹¹

YGS's Tariff includes an extension of time to comply with NAESB WGQ Standards for certain data sets for Electronic Data Interchange ("EDI") related requirements. Though YGS supports some EDI data sets, there are several that have never been requested by any party to receive information by EDI pursuant to the data sets found in NAESB Standards: 0.4.1, 2.4.1 through 2.4.4, and 3.4.1 through 3.4.4. Therefore, YGS respectfully requests the continuance of an extension for 60 days after the receipt of a request by a Part 284 shipper to use such a standard and dataset for YGS to comply with these EDI standards. This 60-day period will allow time for YGS to test and implement any of the above listed EDI data sets if and when a shipper requests to use such an EDI data set. YGS's original request for extension on these standards was accepted by the Commission in its *Order On Filings In Compliance With Order No. 587-Z*.¹² YGS

Procedural Matters

YGS is submitting an eTariff XML filing package, which includes the following:

- a) a transmittal letter; and
- b) clean and marked versions of the tariff record in PDF format.

YGS respectfully requests the Commission accept the tendered tariff record for filing and permit it to become effective January 1, 2027, consistent with the Commission's directive in Order No. 587-AB. With respect to any tariff provision the Commission allows to go into effect without change, YGS hereby moves to place the tendered tariff provisions into effect at the end of any minimal suspension period established by the Commission.

Correspondence and communications concerning this filing should be directed to:

22. Compliance with 18 CFR, Section 284.12

Transporter has adopted the Business Practices and Electronic Communications Standards, NAESB WGQ Version 4.0, and the standard revised by Minor Correction MC24002 marked with an asterisk [*], which are required by the Commission in 18 CFR Section 284.12(a), as indicated below. Standards without accompanying identification or notations are incorporated by reference. Standards that are not incorporated by reference are identified along with the tariff record in which they are located. Standards for which waivers or extensions of time have been granted are also identified.

Standards not Incorporated by Reference and their Location in Tariff:

Pursuant to NAESB's Copyright Procedure Regarding Member and Purchaser Self-Executing Waiver as adopted by the NAESB Board of Directors on April 4, 2013, Transporter may publish in its tariff, compliance filings, in communications with customers or stakeholders in conducting day to day business or in communications with regulatory agencies some or all of the language contained in NAESB standards protected by copyright, provided that Transporter includes appropriate citations in the submission.

Transporter has elected to reproduce only the following Business Practice and Electronic Communications standards, NAESB WGQ Version 4.0, that are protected by NAESB's copyright. With respect to each reproduced standard (including any minor corrections), Transporter incorporates the following: © 1996 - 2026 North American Energy Standards Board, Inc., all rights reserved.
