If the application is installed on the mobile device, click the *next* button and open the *SecurID* app on your mobile device.

If you have not installed the app, go to [installation instructions](#).

1

Install SecurID Authenticator

2

Register Authenticator

On your iOS, Android, or MacOS device, go to the [App Store](#) or [Google Play](#).
install.step.securid.gotostore.desktop

 Search for the SecurID Authenticator

 Install the App

Cancel

Next

Open the *SecurID* app on your mobile device.

Press the *Get Started* button to begin the credential import process.

Apple

Allow access to the Camera to scan the QR Code displayed in the SecurID Browser.

You can change this setting in your device settings after completing the registration process.

If you do not want to allow access to the camera, press *Don't Allow*. You will need to enter the information manually.

Android

Hold your mobile device up to the screen displaying the QR Code.

DO NOT SCAN THE QR CODE FROM THIS DOCUMENT!

Center the QR Code in the camera viewing window while slowly moving the device backwards until the QR Code is read.

1

Install SecurID Authenticator

2

Register Authenticator

1:38

App Store

Add Credential Code.

Or

Submit

Enter Details

Open the app and enter:

Registration Code: 123456789

Email Address: UserID@ext.kindermorgan.com

Organization ID: kindermorgan

Information on this page will expire in: 01:41

When the credential information is imported successfully, a pop-up will be shown. Press *OK* to continue.

Leave the device and application open to test the authentication token process.

After the mobile device has successfully imported the credential information, the browser screen will change to the one displayed on the right.

Use the *Test Now* button to ensure the device registration was successful.

The browser window will update to show a screen like below.

Confirm the test by pressing the green check mark on your mobile device.
